

## BaZi

“Eight Characters” or “Four Pillars” more popular known in the West, is a sophisticated **Art of Birth Data Analysis** by using the Chinese Five-Element Theory.

The birth data of an individual is translated from Year, Month, Day and Hour of birth into four pairs of Chinese Characters. This analysis focuses on the Yin and Yang variations of the Five Elements. By analyzing the structure, compatibility, clashes, combinations and inter-relations of these eight characters, we can learn much about our true characteristics and our future path in life.

BaZi calculation enable us to explore the cyclical influence of our 'destiny' in terms of important areas such as **When to get married? Your children's behavior & potentials, Dealing with problematic relationships, Increasing your wealth, Fame, Recognition, Career path, Studies, Partnerships, Business opportunities** and almost every other important aspect of our lives.

**An individual can make use of this information:-**

- **To increase the opportunities for promotions at work or career opportunities**
- **For singles - Increasing chances of marriage**
- **Preventing a divorce from taking place**
- **To deal with adversities in your life**
- **Getting rid of bad habits by understanding your strength & weaknesses**
- **Knowing when is a good timing for conceiving a baby**
- **Avoid taking risks during bad luck cycle or year**
- **Make informed decisions based on forecasts in each luck cycle**

BaZi analysis can be treated as a branch of science classified under metaphysics. The analysis undergoes a series of calculation which will tell **your destiny on important events happening throughout your life**, such as illnesses, marriage, prosperity, longevity and disaster etc.

BaZi is **tangible knowledge**, which **can be Learned and Manipulated**. Using and knowing the forecast technique, it helps you to decide on the **Best Time to Act** or the **Possibility of Success**.
