FINANCIAL FORECAST FOR 7 SEPTEMBER TO 7 OCTOBER 2008

Another strong metal month which is supposed to brings strength to the metal related industries. However, the energy is unstable when compared to the year's element – the Rat. Hence, as this provides the opportunity for strength, it also shows the weakness of the metal related industries. Similarly, the equity market has the opportunity to realise profit as well as lose profit. This is a month to exercise caution particularly during the second half of the month. Property and other earth related industries will see competitions. Wood related market should be weak and this should create opportunities for investments.

Industries that are likely to perform well: Metal and Water related industries.

Metal Industries: Gold, metal products, hardware, engineering, automobile, heavy equipments, precision oriented industries etc

Water Industries: Shipping, water treatment, beverage, logistic, transportation & communication etc.

Fire industries: equity, hospitality, service oriented, media, entertainment, beauty, energy etc

Earth industries : Property, coal mines, insurance, health care, banking etc

Wood Industries: Agriculture, education, paper, fashion timber, management, food etc

FENG SHUI ADVICE:

South East and East sectors bring wealth for those who are investing and seeking wealth. Place a water feature or your investment portfolio or simply use these sectors for your investment decisions. Avoid using the North West, West, South West and South sectors at all cost if you are holding major positions in the market.
