# FINANCIAL FORECAST FOR 8 OCTOBER TO 6 NOVEMBER 2008

**W**ater influences the first half of the month which brings activities to the metal and water related industries. This is a sign of weakness to the metal industries which is likely to cause the fall of pricing. The equity market is unlikely to perform well, we can expect the market to continue sliding. Ironically, the water element that is present this month suggests that there will be potential gains and losses for the earth related industries. Overall, the energy is most beneficial to the wood related industries since both resource and wealth elements are present.

**Industries that are likely to perform well:** Water and Wood related industries.

**Metal industries:** Gold, metal products, hardware, engineering, automobile, heavy equipments, precision oriented industries etc.

**Water industries:** Shipping, water treatment, beverage, logistic, transportation & communication etc.

**Fire industries:** Equity, hospitality, service oriented, media, entertainment, beauty, energy etc.

**Earth industries :** Property, coal mines, insurance, health care, banking etc.

**Wood industries:** Agriculture, education, paper, fashion timber, management, food etc.

## OVERALL WEEKLY VIEWS:

### 6 OCTOBER – 10 OCTOBER

The elements this week do not support the equity

market; it is unlikely that the market has strength or support to do well. Slow and dampening.

### 13 OCTOBER – 17 OCTOBER

The market is unlikely to perform well this week as well. Should there be any strength from the daily elements, it is likely market will perform better on the 13 and 14 Oct.

### 20 OCTOBER – 24 OCTOBER

The elements that are required to strengthen the market are present but weak. It is likely to be struggling for strength this week. However, 20 and 25 Oct show extreme weakness which can be dampening to the market.

### 27 OCTOBER – 31 OCTOBER

Market is unlikely to see strength this week too. Should there be any chance, it is likely that we see some strength on 31 Oct.

## FENG SHUI ADVICE:

South East sector brings wealth for those who are investing and seeking wealth. Place a water feature or your investment portfolio or simply use these sectors for your investment decisions. Avoid using the North West, West, North East and North sectors at all costs if you are holding major positions in the market.
